VVD Home One

The smallest VIVIDHOMES.nz model available; it is an ideal type for a thoughtful boy or an independent girl. If you prefer privacy and peace, you will be delighted.

You can tidy up the residential area of 28sqm easily and at the same time treat your visitors in a spacious kitchen. A quality bathroom is a matter of course even for the smallest model.

You can make use of the comfort of the VVD Home One also as a luxurious cottage or a presentable office.

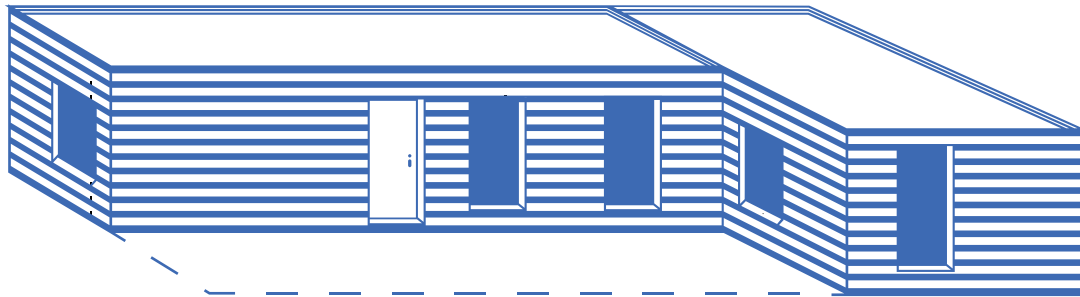

VVD Home Two

A prototype and the most classic model of VIVIDHOMES.nz it is a beautiful, clean and comfortable living space for a couple, our first 57sqm.

A magnificent kitchen with a relaxing zone can bear a small party or become a place for recreation. You'll definitely fancy a well thought out bathroom at the entrance to your bedroom. Do you already have a home? Then you can simply change this space into a company office or a cosy cafe. Whatever you wish.

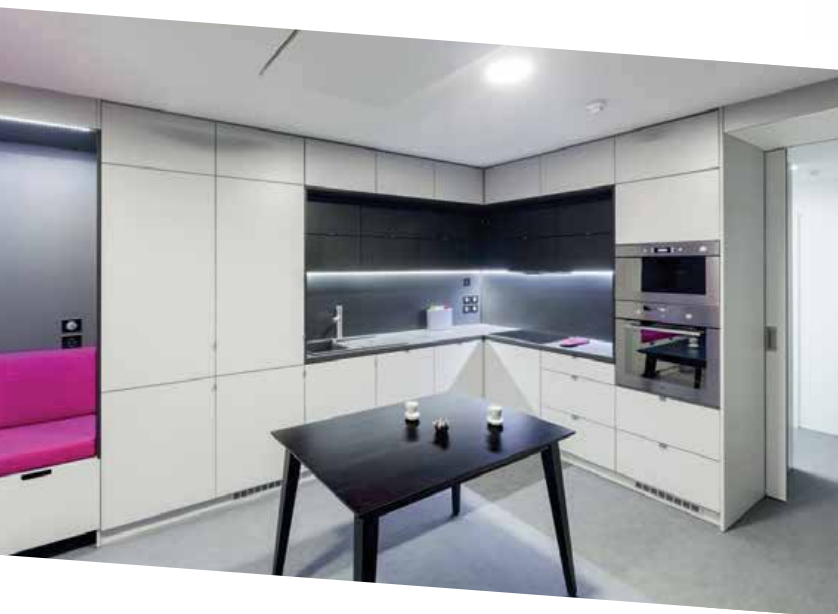

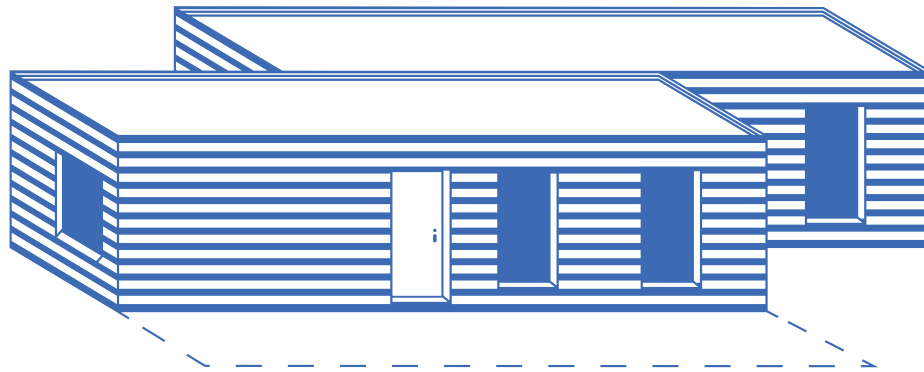

VVD Home Three

A bigger model, which offers all the beauty and advantages of the VVD Home One and Two. It brings the perfect background with the full comfort for the future family. You'll use the spacious 85sqm even if you're already parents.

Once you have decided to send your adult baby off to explore the world, you can change the space into a guestroom for your future parties!

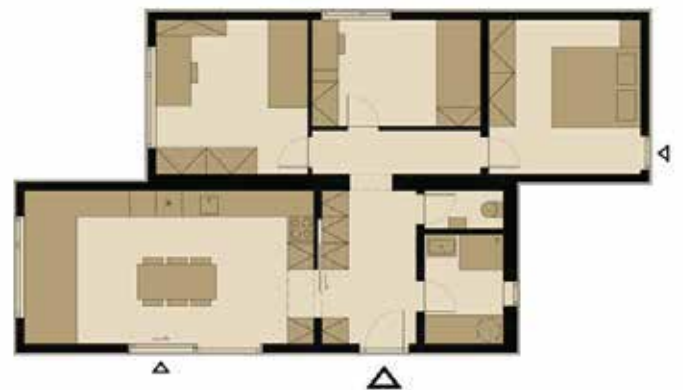

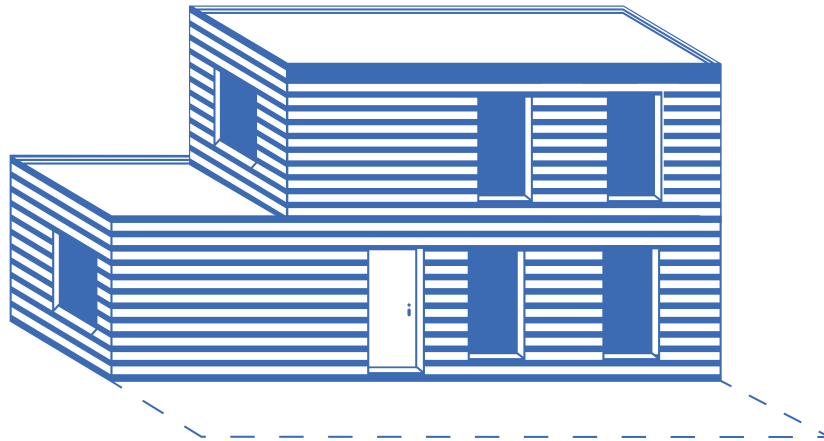

VVD Home Four

The most popular model for a family with children, it is an ingenious interior of 114sqm which will win you over by its practicality and the sheer amount of incorporated storage places. It arose through a clever connection of two bigger VVD Home Two and confirms its excellent character of being expandable.

Being able to wash your children in a spacious and bright bathroom, to have dinner with the whole family in a habitable kitchen and to provide your children with privacy in their own rooms are only examples of the advantages that this model offers.

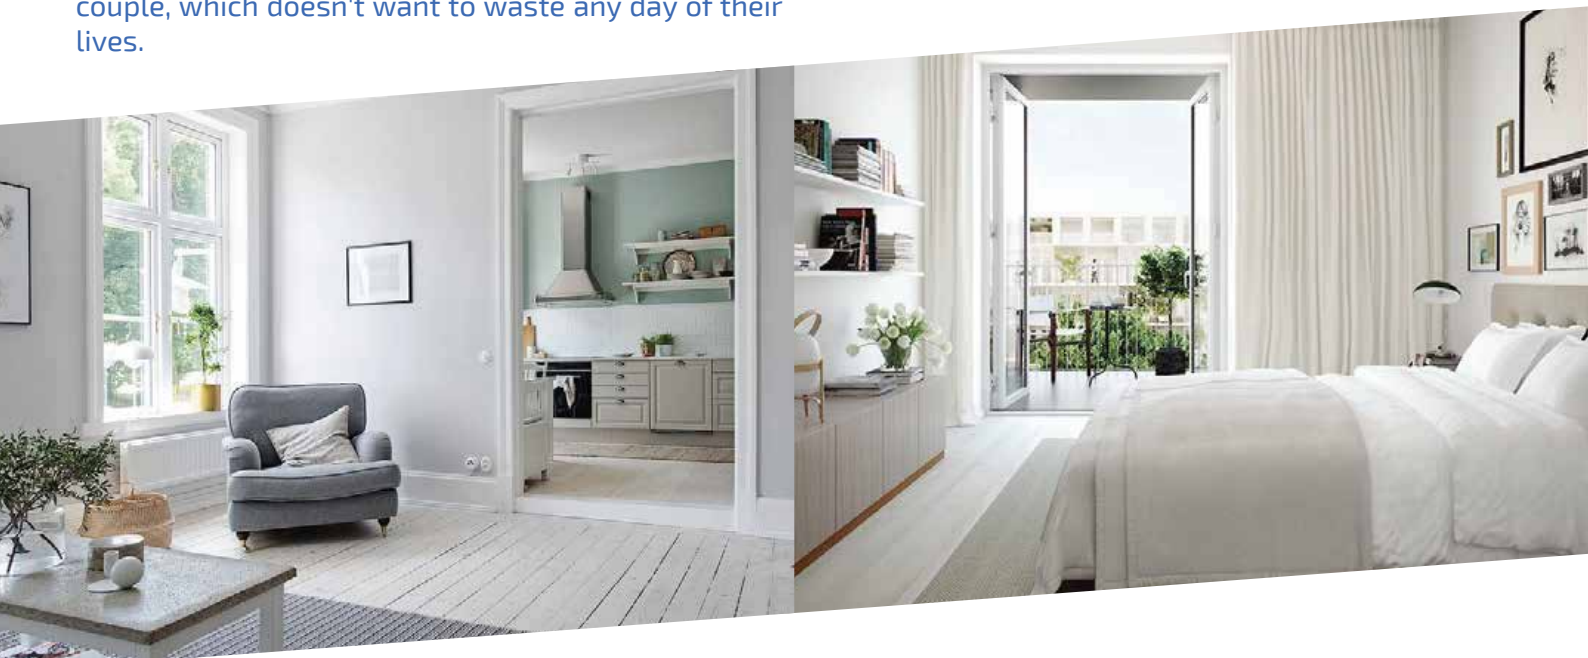

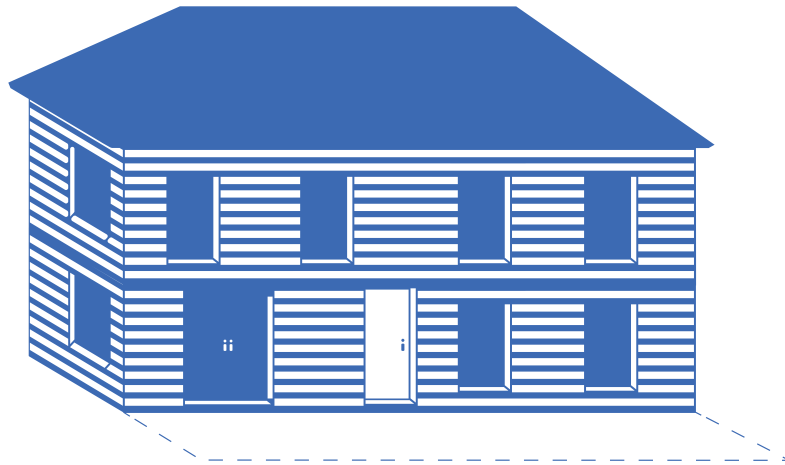

VVD Home Five

A well refined storeyed model of the VIVIDHOMES.nz, with 85sqm of the living area, will fascinate you from the first sight. Once it rings the bell at your door, you won't resist. And as soon as you wipe out the dust from the bathroom, you can go straight to the bedroom, ideally designed for your relaxation. Or will you prefer the scents of the goodies in your amazing kitchen? You can then just climb up the stairs to your inviting party room.

You'll be seated to a comfy armchair by the view through the French window to your terrace. If there's no party on, it's a great place to lounge. A well designed VVD Home One and Two is a great enticement both for a family with children and for a couple, which doesn't want to waste any day of their lives.

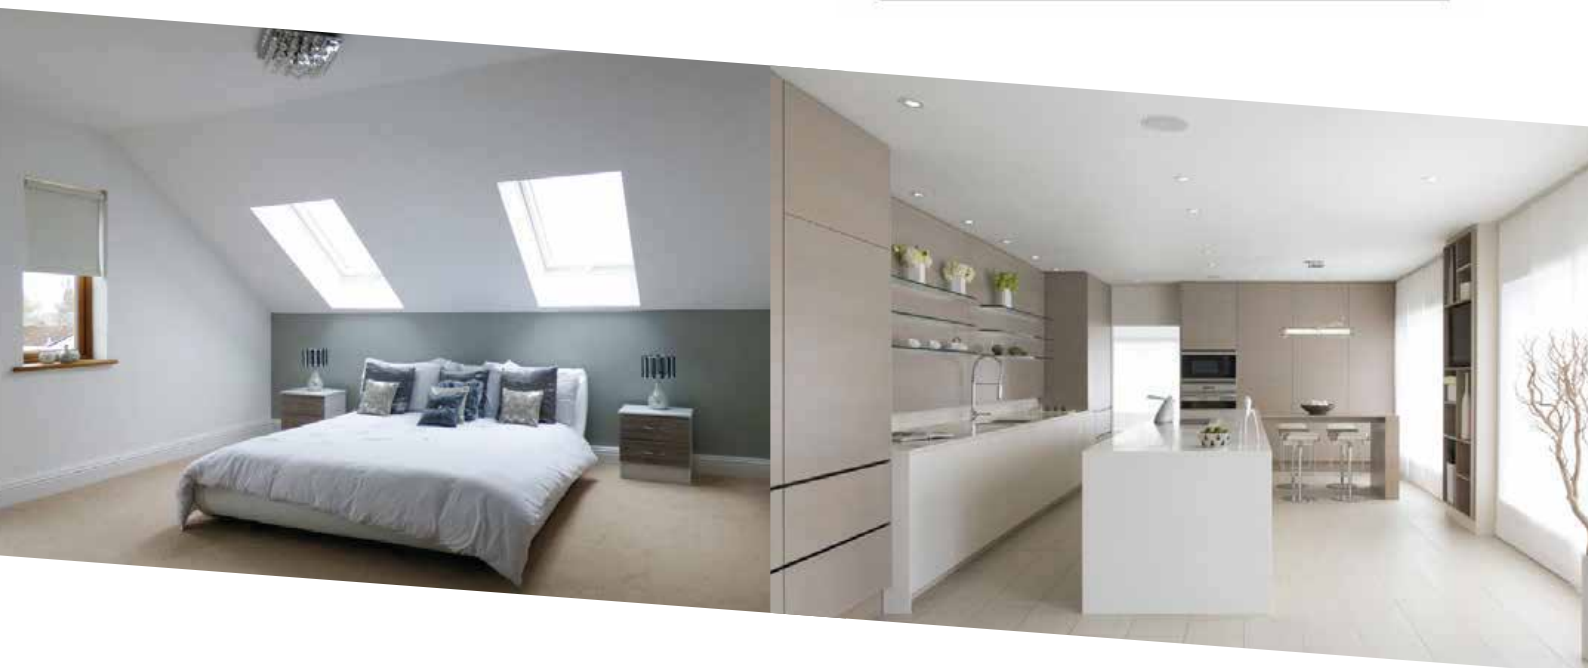

VVD Home Six

The second biggest model is a coherent and perfect alternative to a classic family house. You'll get a comfortable and spacious house for a bigger, let's say five-member family just by the connection of 2 models VVD Home Two. Beside a kitchen, big as a dance floor, there are 4 bedrooms, 2 separate toilets, bathroom, laundry and a cloak room, you can easily hide in your own study.

VVD Home Six with 114sqm is immensely practical also as a luxurious private practice, stylish cafe or your company office.

You share your ideas about the furnishing, layout and configuration of the interior with our architect, who designs your home to perfectly fit your concept. You can discuss the kitchen, the bathroom, all the wall linings, appliances, lights, doors... simply any important details, which we implement based on the approved design.

Then you need only cut the ribbon to go in and have a coffee in your new VIVIDhome. We'll equip your house with the branded VIVIDHOMES.nz storage system, ingeniously designed and with the emphasis on quality production and practicality. You'll be amazed how much space, which is usually not used, can become resourceful storage area.

Foundations | Technology Krinner

We will place your house on stainless-steel Krinner ground screws.

They are 2m long and we will prepare twelve of them for perfect stability.

House made of more connected modules could be placed on the concrete strip foundations as well.

TECHNOLOGY

INSULATION AND GUTTERS

The roof is elegantly bounded with an anthracite rim from a plastic-coated metal sheet. Thanks to the ingenious gradient of the roof, rainwater drains through the spouting on the shorter wall of the house.

WOODEN DESIGN FACADE

The facade is our pride. We offer two beautiful options of wooden facade from Nordic larch, which easily resists any climatic conditions. Or for a small addition on price you can have what you like most, such as, Hardies Weatherboard, Bricks or Blocks, Timber or Rock...

SPACE FOR ACCESSORIES

For your mailbox, house number and everything you want. We've added an upper light and practical socket for your comfort in case you need to work outside the house.

SLIDING DOOR

We think about you and thus we use prominent double-glazed windows and magnificent sliding HS portals from wood. You will appreciate this long-lasting functionality without problems and worries yourself.

CONNECTIONS

Connecting houses is very simple. Water and power supply and gutter or septic tank are ideal. Our assembly expert will connect all plugs and connections to the inner manifolds on the spot.

FOUNDATIONS

We will place your house on stainless-steel Krinner ground screws. They are 2m long and we will prepare twelve of them for perfect stability. House made of more connected modules could be placed on the concrete strip foundations as well.

ADJUSTING THE LAND

Before house is set down, we'll prepare a bed of pebbles or other aggregate. Special foil will obstruct weeds from growing.

SUPPORTING STRUCTURE

The skeleton of house is made completely out of steel. Individual features are connected with cogs with a patented Swiss system.

HEATING SYSTEM

Heating VIVIDHOMES.nz houses is thanks to its great insulation and is unbelievably economical. We offer two options. Convection heaters or electric infraheating panels, which won't take any space as they can be placed on the ceiling.

FLOORS

Choose your own decor of a quality and resistant vinyl floor. If you prefer wood, we can offer you a wooden pleated floor, depending on your needs and wishes.

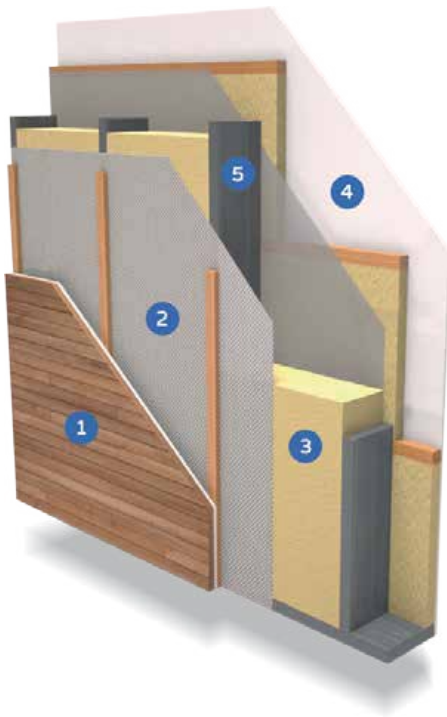

EQUIPMENT

Each house has a fully equipped bathroom with toilet, floors selected by you, basic lights, heating, wall sockets and switches. Entrance and interior doors are a matter of course. You can live in IT straight away.

FURNITURE

We've developed our own furniture range for VIVIDHOMES.nz. It is ideally designed for individual modules and makes use of the whole space perfectly. You select the configuration of the furniture including colour and material yourself. If you decide for a special design, our designer will fulfil your dreams.

Continue 

WALL STRUCTURE

The walls of house breathe. They are constructed as diffusely open, insulated with a wood-fibre insulation and sheathed with decks. The value of the heat output by the wall is 0.28 W/m².K.

1. Wooden facade cladding from Nordic larch (or Hardies, Weatherboard, Bricks or Blocks...).
2. Breathable Waterproof membrane and Ventilated space (gap) and wood-fiber board insulation.
3. RockWool 75-80 mm panels from Breathable corrugated sheets with unique technology of ventilation.
4. Gib smooth finish.
5. Iron framework from profiles, earthquake Certified for up to 8.00 grade on Richter Magnitude scale.

DOUBLE-SURFACE FLAT ROOF

House roof is aired and properly insulated. We use a big layer of a wood-fiber heat insulation.

QUALITY ROOFING

We choose the best quality for VIVIDHOMES.nz. It's roofing perfectly resists weather conditions thanks to the Swiss coated insulation SikaRoof. Protective UV stabilizing coating prolongs the lifecycle up to 70 years.

FIRE PREVENTION AND SENSOR

House construction is perfectly resistant to fire. So as you feel secure, we've added a fire sensor. It will alert you in case of a fire.

6 REASONS FOR US

VIVIDHOMES.nz is no ordinary house. If you decide on one, it'll become your new lifestyle. You'll fall in love with it at first glance. Here are 6 reasons it's the right choice for you...

The size of your house is purely your choice. Whether you are single, a married couple, a young family or you long for a quiet place with your partner or for yourself, you will be able to choose. We are thinking of you all.

LOW-ENERGY

Everything is conceived and designed so perfectly in VIVIDHOMES.nz that you can not only live comfortably but also economically. We didn't skimp on ideals, materials or production, saving you both energy usage and costs.

READY IN 3 MONTHS

This is possibly the greatest allurement of VIVIDHOMES.nz. Imagine: you choose the type of house that suits you best. You select the fittings and furnishings and, without any worry about workmen, without a single day of cleaning up after masons, decorators or plumbers, we'll make your new, high quality house in 3 months.

SMARTLY USED

Traditional houses and flats are often full of unused space. Our houses are absolute favourites for their practical use of every corner. You'll be astonished how spacious it is in reality and how much storage space you'll find in it.

DURABILITY

You don't have to worry at all! We didn't skimp on materials or production quality. VIVIDHOMES.nz is not a caravan, which you dump in a scrapyard one day. On the contrary, this house is a reliable member of your family and durable for at least 70 years, the same as any masonry or timber construction.

EXPANDABLE

VIVIDHOMES.nz lives and grows with you. When an orthodox single person becomes a family type, or if you decide to have a home office, you can just expand your house. You simply choose another module which will become a natural part of your original existing house.

MOBILE

Mobility is yet another allurement which an ordinary house lacks. Your ready-made house arrives to your designated location. And if you decide in a few years to replace the buzz of the city for a peaceful place in the mountains, your beloved house will come with you.

3 LEVELS OF FITTINGS AND FURNISHINGS

VIVIDHOMES.nz offers you not only a wide scale of shape and size options, but we've also prepared a variety of fittings and furnishings. You can choose based on your ideas or depending on your financial possibilities. We respect every customer and we will be more than happy to give you advice.

CLASSIC

If you select the CLASSIC, we will bring you a house that is completely functional and immediately ready to use. You will find a fully equipped bathroom with toilet in the CLASSIC house. Your selected floors, basic lights, wall sockets and switches, entrance and interior doors are all perfectly rendered. And all that in a freshly decorated house with the redolence of modernity.

UNIVERSAL

VIVIDHOMES.nz, with its optional home furnishings, is an ideal and affordable solution for anyone. Besides the CLASSIC furnishings, we add a practical kitchen complete with appliances. We offer kitchens in 2 sizes and 5 different colours. We will equip your house with the branded VIVIDHOMES.nz storage, ingeniously designed and with the emphasis on quality production and practicality. You will be amazed how much space, which is usually not used, can become convenient storage areas. You can also choose your type of relaxation zone, in which we can arrange a couch or an escritoire at your request.

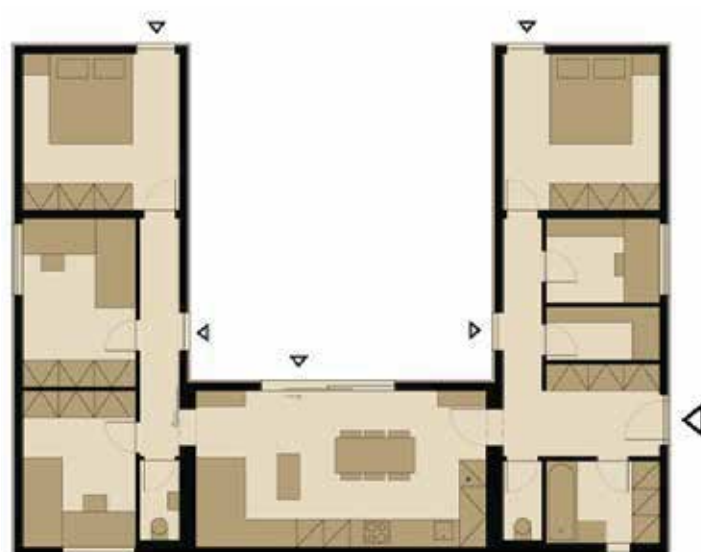

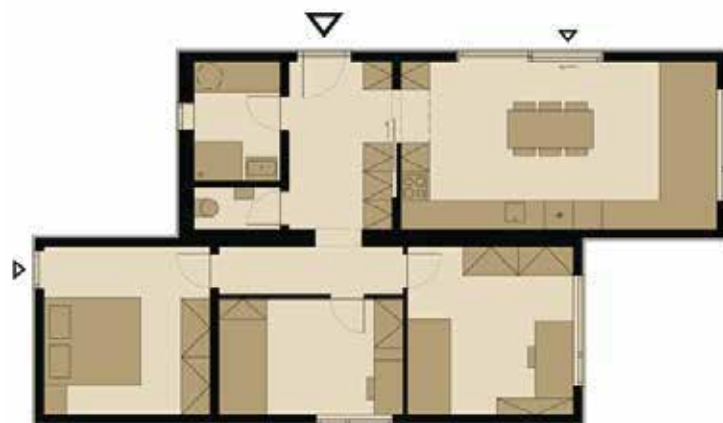

INDIVIDUAL

We respect your wishes. That is how we might summarize the most luxurious choice of fittings and furnishings VIVIDHOMES.nz offers. So, how does it work? You share your ideas about the furnishing, layout and configuration of the interior with our architect, who designs your home to perfectly fit your concept. You can discuss the kitchen, the bathroom, all the wall linings, appliances, lights, doors... simply any important details, which we implement based on the approved design. Then you need only cut the ribbon to go and make a coffee in your new kitchen.
